## **ATTENDANCE RULES**

Practice of attending regular classes makes a student responsible, disciplined and a good time manager. Regular class attendance is crucial for the education and overall development of students as it provides them with an **Active Learning Experience**. Explanations, clarifications, discussions, opportunities for feedback and group tasks etc. are invaluable components of an effective learning environment, the benefits of which can be availed only by attending classes regularly.

PRINCIPAL  
SRI AUROBINDO COLLEGE OF  
COMMERCE & MANAGEMENT

The College expects that every student attends 100% of the lectures delivered in each subject during the session. In order to ensure regular attendance, the following attendance policy will be applicable:

### **REGULAR COMMUNICATION TO PARENTS/GUARDIANS IN CASE OF SHORTAGE IN ATTENDANCE**

Attendance will be calculated for each subject separately on weekly basis. In case the attendance of any student is less than 75% at the end of a month, his/her parents will be informed immediately about the same. In addition to this, parents will be also informed about the attendance of their ward in all subjects on daily/weekly basis.

### **CONTINUOUS ABSENCE FOR CONSECUTIVE FOUR WORKING DAYS**

Every student shall attend his/her classes on all working days unless he/she is granted leave by the College. If a student remains absent from his/her class for a continuous period of four working days without authorized leave, his/her name will be struck off from the College rolls and the parents of the student will be informed about the same immediately through an SMS. Re-admission may be given in accordance with the rules of re-admission.

### **LEAVES**

Approved Leave is counted as 'Absence'. It is just an 'authorized absence' with zero attendance benefit, although no fine will be imposed for the authorized absence. The College will sanction leave only within the framework laid down by the University. Every student must have attended at least 75% of the total lectures delivered in every subject.

*(Note: There will be approximately 90 lectures in odd and 70 lectures in even semesters. The students are therefore advised to judiciously plan their leaves.)*

## Inter Section Subject Quiz (ISSQ)

*(Based on teaching learning practices followed by some of the Universities in U.K.)*

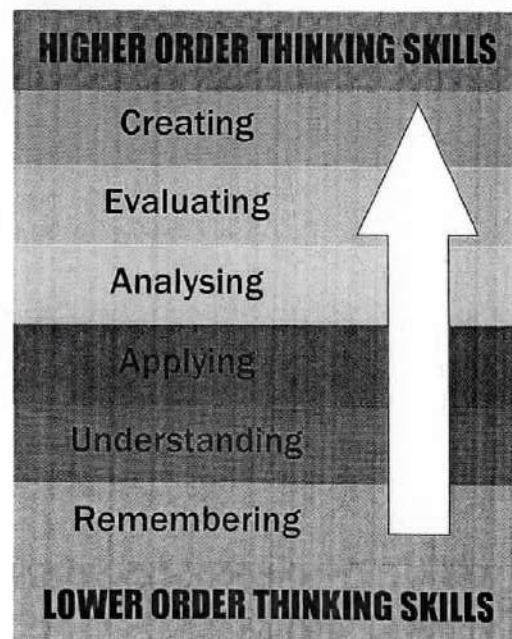

An innovation teaching pedagogy in the form of Inter-Section Subject Quiz is organized every year with the objective of instilling a habit of regular studies. For this, the students are divided into three groups according to their academic performance just as in case of tutorial system. Then teams are formed having team members of three different academic calibers with the aim to promote peer tutoring and cooperative system of learning. Being an Inter Section Quiz, it helps in enthusing

competitive spirit. The backbone of ISSQ is the comprehensive question banks prepared by the teachers matching the varied intelligence levels and academic caliber of team members.

## Question Paper Setting and Evaluation to Augment the Teaching Learning Process

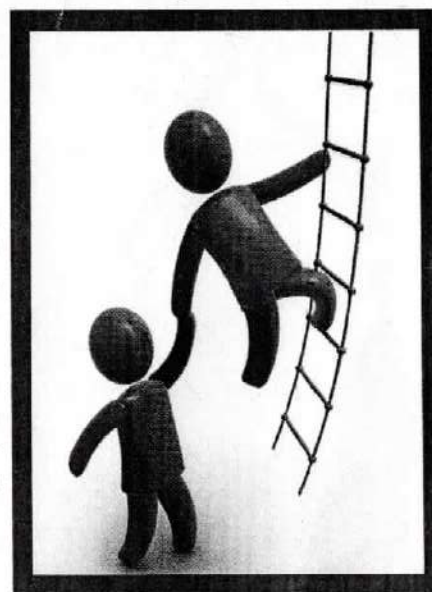

Question Paper Setting and Evaluation is a very important constituent of the teaching-learning process. If designed in a planned and thoughtful way, question paper can be used as an important tool to assess and evaluate students' learning outcomes. Besides, preparing students for the exams, the main intention behind setting a paper is to test the students' High Order Thinking Skills (HOTS) and to discourage the menace of selective study. Question papers are set in a manner that they can help in evaluating not only the factual knowledge of the students, but also their intellectual skills, analytical abilities, application of knowledge and the problem solving skills. Such a framework clearly brings out the varied intellectual levels of the students leading to students' categorization, followed by identification of their respective problem areas and eventually leading to the appropriate remedial measures.

## Performance Management through Academic Action Plans

*(Based on the principles of 'Management by Objectives' i.e. MBO modified into TBO i.e. Teaching by Objectives)*

SACCM aspires to produce the best results in the University Examinations. To achieve this objective, a comprehensive assessment cum action planning is followed. Action Plans are designed based upon the concept of MBO (modified into TBO i.e. Teaching by Objectives) and Performance Management. Foundation of Action Plan is based on the potential performance (which is possible) and actual performance (which has taken place) of a student. After the thorough analysis of the students' performance, an assessment of students' understanding of a subject, ability to apply conceptual knowledge to complex problems and presentation skills is carried out. An Action Plan is then prepared based on the assessment and special classes are arranged for students with average, above-average and outstanding scholastic abilities which help them in ensuring the best preparation for and performance in the Semester Examinations.

*All the above mentioned academic activities are interlinked with each other. Performance of all such activities in a well structured manner makes the teaching learning experience at SACCM more valuable and effective for both teachers as well as students*

No Note

(1) **Current Liabilities and Current Assets :**

Net Working Capital = Current Assets - Current Liabilities

Current Ratio = 2.5

Let current liabilities be x so, current assets will be 2.5x.

Net Working Capital = 2.5x - x

₹ 3,00,000 = 2.5x - x

₹ 3,00,000 = 1.5x

$$x = \frac{₹ 3,00,000}{1.5} = ₹ 2,00,000$$

When current liabilities are ₹ 2,00,000, current assets will be  $2,00,000 \times 2.5 = ₹ 5,00,000$

Liquid Assets =  $2,00,000 \times 1.5 = ₹ 3,00,000$

(2) **Stock :**

Stock = Current Assets - Liquid Assets

Stock = ₹ 5,00,000 - ₹ 3,00,000 = ₹ 2,00,000

(3) **Cost of sales :**

$$6 = \frac{\text{Cost of Sales}}{\text{₹ 2,00,000}}$$

Cost of sales = ₹ 2,00,000 × 6 = ₹ 12,00,000

(4) Sales :  
Cost of Sales + Gross Profit  
Gross Profit =  $\frac{\text{₹ 12,00,000} \times 20}{80} = \text{₹ 3,00,000}$   
Sales = ₹ 12,00,000 + ₹ 3,00,000 = ₹ 15,00,000

(5) Fixed Assets :  
Fixed Assets Turnover Ratio =  $\frac{\text{Sales}}{\text{Fixed Assets}}$   
2 =  $\frac{\text{Total Debtors} \times 12}{15,00,000}$   
Fixed Assets =  $\frac{\text{₹ 15,00,000} \times 2}{2} = \text{₹ 7,50,000}$

(6) Debtors :  
Average Debt Collection period =  $\frac{\text{Total Debtors} \times \text{No. of Months}}{\text{Sales}}$   
2 =  $\frac{\text{₹ 15,00,000}}{\text{Fixed Assets}}$   
Total Debtors =  $\frac{\text{₹ 15,00,000} \times 2}{12} = \text{₹ 2,50,000}$

(7) Shareholders' Net Worth :

1 : 1  
₹ 7,50,000 : ₹ 7,50,000

(8) Share Capital :  
Reserves : Share Capital  
0.5 : 1  
Shareholders' Net Worth = Share Capital + Reserves  
₹ 7,50,000 = 1 + 0.5  
Share Capital =  $\frac{\text{₹ 7,50,000} \times 1}{1.5} = \text{₹ 5,00,000}$   
Reserves = ₹ 7,50,000 - ₹ 5,00,000 = ₹ 2,50,000

(9) Long-term Debts :  
Long-term Debts = Total Assets - (Shareholders' Net Worth + Current Liabilities)
